PROFESSIONAL EXPERIENCE

Cloud Operations Administrator I

Amsterdam, Netherlands

DigitalOcean · Full-time

May 2024 – Present

I ensure the smooth operation of our cloud infrastructure. Reporting to the Manager of Cloud Operations, I monitor and respond promptly to all cloud health issues that impact, or could potentially impact, both internal and external customer experiences. I collaborate with teams across the organization to research and troubleshoot issues, ranging from single droplets to cloud-wide disturbances.

Day-to-day tasks:

- Monitoring cloud health to ensure maximum uptime for DigitalOcean's global infrastructure
- Automating processes and developing tools to enhance operational efficiency
- Coordinating with various teams to address operational challenges and improve the platform with minimal impact on users

Implementation and Support System Engineer

Paiania, Greece

Intracom Telecom · Full-time

Nov 2021 – Apr 2024

I was responsible for qualitative control and technical support of mobile prepaid telecommunication services and systems for telecommunications organizations in Greece and abroad. I was implementing and supporting applications for prepaid telephony of corporate clients and I had been given the opportunity to get to know in depth the structure and needs of large and integrated telecommunication networks. I was involved in several projects including implementation of products based on ServiceWeaver™ platform such as Internet Abroad and Prepaid Orchestrator microservices, playing an important role in all stages of the deployment.

I was working with a diverse range of tools and technologies:

- **VCS:** Git, GitLab CI/CD
- **Containerization:** Docker
- **Networking:** TCP/IP, NAT
- **Virtualization:** VMWare ESXi
- **Linux:** RHEL, CentOS, Ubuntu
- **Pub/Sub Systems:** RabbitMQ
- **Programming:** Bash, Java, Python
- **Infrastructure Automation:** Ansible
- **Databases:** MySQL, Oracle, MongoDB
- **Monitoring/Logging:** Grafana, Prometheus
- **Security:** iptables, firewallD, SELinux, SSL/TLS

System Analyst

Papagou-Cholargos, Greece

Hellenic Army General Staff (KEPYES) · Full-time

Dec 2020 - Aug 2021

I was responsible for performing troubleshooting of computer systems, hardware, and software. This involved identifying issues and providing timely solutions to ensure that systems were running optimally. I also gained expertise in resolving network problems, which included giving users clear instructions on how to perform tasks related to network maintenance and troubleshooting.

Digital Marketing Intern

Málaga, Spain

Oh My Good Guide · Erasmus+ Internship

Feb 2020 - May 2020

I gained extensive experience in SEO techniques, social media management, and creative thinking. I was proficient in web management using WordPress and created engaging blog content. My experience with Google Analytics and Search Console honed my data analysis and problem-solving skills. Additionally, I managed client reviews and online travel agencies' systems, developing my communication and customer service abilities. Overall, I gained valuable skills in digital marketing and web management, as well as data analysis and client management that I can apply to future roles.

System Administrator

AUEB CSLabs · Part-time

At the Computer Science Laboratories of the Athens University of Economics and Business, I was responsible for both systems monitoring and direct communication with end users.

Athens, Greece

Oct 2017 - Feb 2019

ACADEMIC BACKGROUND

BSc in Computer Science (4-year degree, 240 ECTS)
