

# Paraskevas Leivadaros

Infrastructure Operations Engineer | MSc Data Science

Amsterdam, North Holland, Netherlands • **linkedin:** [paraskevasleivadaros](#)

**tel:** +306980425006, +31641885217 • **web:** [leivadaros.dev](#) • **email:** [paraskevasleivadaros@gmail.com](mailto:paraskevasleivadaros@gmail.com)

## PROFESSIONAL EXPERIENCE

### Cloud Operations Administrator I

Amsterdam, Netherlands

DigitalOcean · Full-time

May 2024 – Present

I ensure the smooth operation of our cloud infrastructure. Reporting to the Manager of Cloud Operations, I monitor and respond promptly to all cloud health issues that impact, or could potentially impact, both internal and external customer experiences. I collaborate with teams across the organization to research and troubleshoot issues, ranging from single droplets to cloud-wide disturbances.

Day-to-day tasks:

- Monitoring cloud health to ensure maximum uptime for DigitalOcean's global infrastructure
- Automating processes and developing tools to enhance operational efficiency
- Coordinating with various teams to address operational challenges and improve the platform with minimal impact on users

### Implementation and Support System Engineer

Paiania, Greece

Intracom Telecom · Full-time

Nov 2021 – Apr 2024

I was responsible for qualitative control and technical support of mobile prepaid telecommunication services and systems for telecommunications organizations in Greece and abroad. I was implementing and supporting applications for prepaid telephony for corporate clients and I had been given the opportunity to get to know in depth the structure and needs of large and integrated telecommunication networks. I was involved in several projects including implementation of products based on ServiceWeaver™ platform such as Internet Abroad and Prepaid Orchestrator microservices, playing an important role in all stages of the deployment.

I was working with a diverse range of tools and technologies:

- **VCS:** Git, GitLab CI/CD
- **Containerization:** Docker
- **Networking:** TCP/IP, NAT
- **Virtualization:** VMWare ESXi
- **Linux:** RHEL, CentOS, Ubuntu
- **Pub/Sub Systems:** RabbitMQ
- **Programming:** Bash, Java, Python
- **Infrastructure Automation:** Ansible
- **Databases:** MySQL, Oracle, MongoDB
- **Monitoring/Logging:** Grafana, Prometheus
- **Security:** iptables, firewallD, SELinux, SSL/TLS

### System Analyst

Papagou-Cholargos, Greece

Hellenic Army General Staff (KEPYES) · Full-time

Dec 2020 - Aug 2021

I was responsible for performing troubleshooting of computer systems, hardware, and software. This involved identifying issues and providing timely solutions to ensure that systems were running optimally. I also gained expertise in resolving network problems, which included giving users clear instructions on how to perform tasks related to network maintenance and troubleshooting.

### Digital Marketing Intern

Málaga, Spain

Oh My Good Guide · Erasmus+ Internship

Feb 2020 - May 2020

I gained extensive experience in SEO techniques, social media management, and creative thinking. I was proficient in web management using WordPress and created engaging blog content. My experience with Google Analytics and Search Console honed my data analysis and problem-solving skills. Additionally, I managed client reviews and online travel agencies' systems, developing my communication and customer service abilities. Overall, I gained valuable skills in digital marketing and web management, as well as data analysis and client management that I can apply to future roles.

## System Administrator

AUEB CSLabs · Part-time

At the Computer Science Laboratories of the Athens University of Economics and Business, I was responsible for both systems monitoring and direct communication with end users.

Athens, Greece

Oct 2017 - Feb 2019

## ACADEMIC BACKGROUND

**MSc in Data Science** (1-year degree, 60 ECTS)

Faculty of Science | University of Amsterdam

Amsterdam, Netherlands

Sep 2024 - Aug 2025

**BSc in Computer Science** (4-year degree, 240 ECTS)

Department of Informatics | Athens University of Economics and Business

Grade: 6.54/10 (Very Good)

Streams of studies:

- Databases and Knowledge Management
- Operations Research and Economics of Information Technology

Key projects:

(2019) A computer game for playing Reversi against a computer opponent utilizing the MiniMax algorithm with alpha-beta pruning for its moves in Java · Artificial Intelligence [INF3531]

(2019) An Android app of a distributed publish/subscribe system that assigns load on different servers to provide information on bus location data in Java and Android Studio · Distributed Systems [INF3664]

(2019) A publisher/consumer reservation system with POSIX threads in C · Operating Systems [INF3464]

(2019) A review study of legal issues that may arise from the provision of cloud computing services · Elements Of Information Law [INF3791]

(2018) An automated school timetable scheduling program utilizing the Hill Climbing algorithm in Java · Artificial Intelligence [INF3531]
